Shape our **Future** – **Build** a  
healthy, active community

  
Lorne Community  
Hospital

## Goal

An expanded on-site gymnasium is the goal of our 2019 Annual Appeal.

Lorne Community Hospital wants to help all sections of the Lorne community move better, feel healthier, pursue active lifestyles, and live longer. We also want to offer physical rehabilitation after illness or injury, for full restoration to employment, sport and active lifestyle.

To achieve this, we need to expand our gymnasium by 70%, to make it large enough to provide fitness classes matched to age and ability, under the supervision of our Physiotherapists and Exercise Physiologist. More people, more programmes, increased community participation.

## Proposed Plan

By redeveloping and expanding our current space to cater for our growing need for exercise and rehabilitation from injury or disease, a number of outcomes will be achieved;

- Increased social connections through regular contact with staff and peers at the gym
- Decreased incidences of chronic ill health through targeted classes and programs
- Increased contact with more community members through access to the community gym.
- Expanded rehabilitation programs in Lorne.
